

Things you think you understand, but don't.

By Neil Fitzhugh

1. Faith is not a set of beliefs. Faith is not your tribe. Faith is not believing in something you don't understand. Faith is a force.
 2. Feelings are not thought. They are chemical enzymes you need to sense in order to get used to. Until you do, you'll be considered a crazy person.
 3. There is no such thing as a gravity wave. *Gravity* is a value of the simulator.
 4. Aliens do not use radio to communicate. They are way beyond your little radio thingy.
 5. The Book of Revelation is not attributed to John the Apostle. It's OK, a lot of folks think Jonah was swallowed by a whale. It was in fact a mission specific prepared fish.
 6. The Book of Revelation was added to the Catholic Canon after much dissension from many great theologians including Martin Luther. (although he did accept it later in life most likely in attempt to "go along to get along") Luther thought it too dark and he was right the first time.
 7. Catholicism is not Christianity; it is a religion.
 8. 95% of all Christian religions are based on Catholicism. Anything tagged a "Protestant" dogma is Catholic lite. A consensus among a majority has never been proof of factual reality.
 9. The Earth is *not* the central planet in the origin story of the cosmos. In fact, Job is not from around here. None of the locations in the story are found on Earth.
 10. There is not one but eight universes, nine if you count the space outside the Grand Universe. Each universe exists as a wave function of the Central Core of Creation on Paradise Isle, which exists as a simile for a particle of light. This is a fractal.
- 10+. They are broken down like this:

Major Sectors

- **Number:** There are 10 major sectors in each Superuniverse.
- **Function:** Major sectors are large administrative units that help manage the vast number of local universes within a Superuniverse.
- **Governance:** Each major sector is governed by three Ancients of Days, who are high-ranking administrators.

Minor Sectors

- **Number:** Each major sector is divided into 100 minor sectors.

- **Function:** Minor sectors further subdivide the major sectors to facilitate more localized administration.
- **Governance:** Minor sectors are overseen by a trio of Perfection of Days.

Local Universes

- **Number:** Each minor sector contains 100 local universes.
- **Function:** Local universes are the primary units where evolutionary life develops and spiritual administration occurs.
- **Governance:** Each local universe is ruled by a Creator Son, who is a divine being responsible for the creation and management of that universe.

This hierarchical structure ensures efficient governance and administration across the vast expanse of the grand universe.

11. The person we call Jesus of Nazareth is actually named Yesua bar Yosef. A host body specially made for the Creator Son, Michael. Also known as Michael of Nebadon. Nebadon is the name of our local universe. (see #10)
12. The word “Heaven” refers to the space around our planet. What you think it means is the place we go to be with God when we die. That would be Paradise. And no, this is not where you go first when you shed your bod. You go to the local system, Satania world headquarters, in our case Jerusem, (yes, the moniker was here before “Satan” used it. Read Ellanora.) and from there get your new body and begin school all over again. LOL, I know, right?
13. *Yahweh* is not the name of The Father, our Creator. Scripture specifically says, as far as we’re concerned, the Creator is someone without a name as there is no person here great enough to call Him by one. Got it?
14. *Yahweh* may well be one of several Anunnaki who ruled regions of the world as divided by Anunnaki leadership. Other regional monarchs include Ra of Egypt, Odin, Zeus, Viracocha, Vishnu, Baal, and others. *Yahweh* was overseer of the zone east of the Nile river to eastern Turkey.
15. Jesus **never** referred to God as *Yahweh*. He had us to pray, “Our FATHER who is in SPACE.”
16. The term, “hosts”, does not mean a large military or angelic force. Physical bodies are hosts. Our Father is the Lord of Hosts, not the God of a lot of soldiers. You do not serve a warmonger.
17. We are called to be as Jesus was, a child of the Father. Because he is not just our Sovereign, he is our brother. Granted we have a long way to go but essentially that is who we are.

18. The Holy Spirit, other than the original one in Paradise Isle, are female in nature. Known as the “Consort Spirit”, they and the local universe Creator Sons form worlds for ascension level spirit incepts to be raised. It takes two because no one entity other than the Father should be able to make planets. Simple. (It takes two keys to launch a nuke.)
19. This realm is a simulation, that goes for the entirety of Creation. The other side of the simulation is the Origin Realm. That is where the Creator lives and maintains the simulation. Understanding this will help you be a better participant in the simulation and yes, your next life is still in the simulation. And yes, the existence beyond this life is still in the simulation. Will be until you enter the Origin Realm, if you ever do.
20. I could go on but we’d be here all day. I have things to get to. Thanks for watching!
